

# How to Get and Use Google Bookmarks with Google Chrome

By: Ricky Cauthon

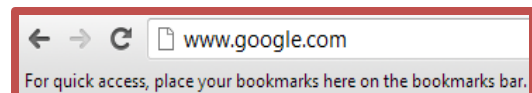

Look up "Google Bookmarks" and click on this link.

This page will pop up.

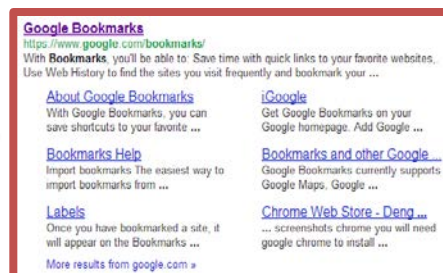

Now go to the page that you wish to bookmark and click this button in your bookmarks toolbar.

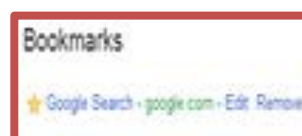

Click and drag the "Google Bookmark" square to your bookmark tool bar.

This will pop up and you change the name to what you'd like and you can add notes and labels. After you click "add bookmark" the page will be saved on your Gmail account

Search "Google Bookmarks" this link should pop up. Click on it.

Now you will see a list with all of your bookmarks saved on your Gmail account.
